CloseOut Management Across Your Entire Project Lifecycle

BuildFlow's CloseOut module tracks important documents across the entire lifecycle of your projects. Our unparalleled document identification technologies use project specifications, submittals, departments, regulatory agencies, commissioning, and facilities management.

We work with all project team stakeholders, providing training, guidance and customer support, for a complete project close-out every time.

How CloseOut Works

- Assign Responsible Parties
- Enter Schedule Milestones
- Select Required Close-Out Items
- Smart Workflow Management

- The CloseOut Dashboard
